

# Folder Listing Import

## Plugin Manual for ASCE 4.2

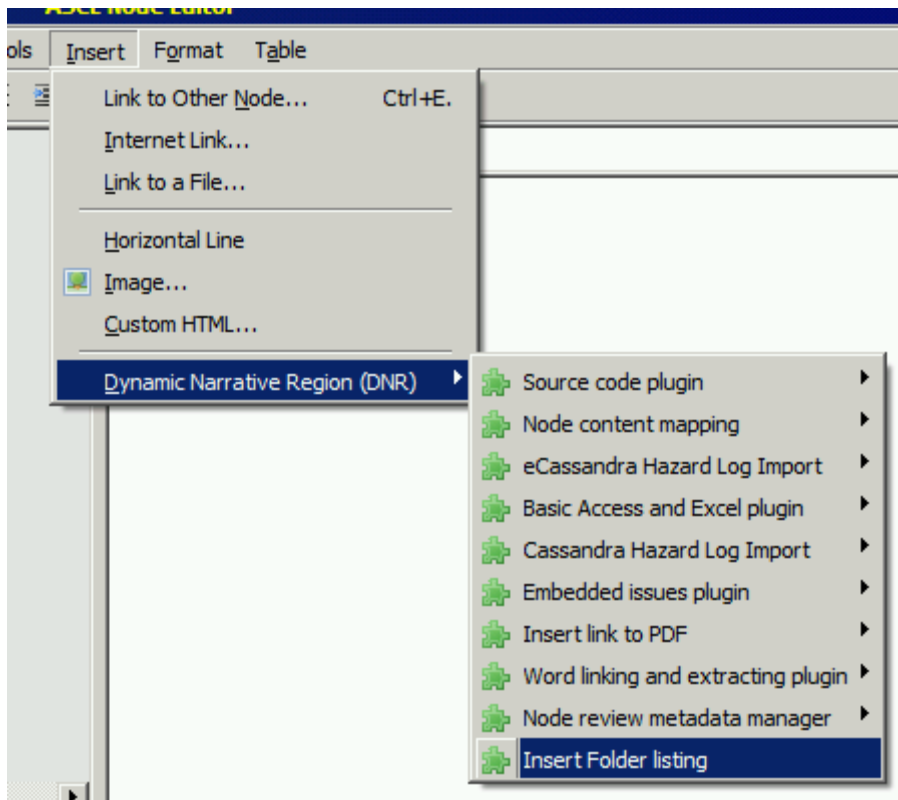

---

- File name: folder listing v0.1.xml
- Version: 0.1.8
- Applies to: All networks

### 1 Description

This plugin allows you to list all the files contained in some folder, as a DNR within a node. It works with the one click export plugin "remove DNR containers" feature.

The plugin adds menu entries into the Insert->DNR menu in the node editor. These are described below.

### 2 Insert folder listing

This DNR allows the insertion of a list of files in some folder, showing size and last save date. You can also choose to list all files of a certain file extension only
